# Review report of the independent auditor To the shareholders of Gulf General Investments Co. (P.S.C)

#### Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Gulf General Investments Co. (P.S.C) (the "Company") and its subsidiaries (the "Group") as at 31 March 2021, the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the three months period then ended and other related explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on these consolidated condensed interim financial statements based on our review.

#### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

# **Basis of Qualified Conclusion**

During the period, interest on borrowings of the Group aggregates to an amount of AED 18.3 million (31 December 2020: AED 122.1 million). This interest cost has not been recorded in the condensed consolidated interim financial statements since 1 January 2021. Had this interest been recognised in the condensed consolidated interim financial statements for the period, the Group's finance costs and loss for the period would have increased by AED 18.3 million and the accumulated losses, net current liabilities and total liabilities of the Group would have increased by AED 18.3 million.

#### **Qualified Conclusion**

Based on our review, with the exception of the matter described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information are not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

# Review report of the independent auditor To the Shareholders of Gulf General Investments Co. (P.S.C)

#### **Emphasis** of matter

We draw attention to notes 5 and 17 of the condensed consolidated interim financial information which fully explains that the Group is in the process of negotiation with the lenders to restructure certain existing loan and credit facilities to meet its commitments and financial obligations as they fall due in the foreseeable future. Our review conclusion is not modified in respect of this matter.

Notes to the condensed consolidated interim financial information (unaudited) For the three month period ended 31 March 2021

# 1 Reporting entity

Gulf General Investments Co. (P.S.C) (the "Company") is incorporated under Emiri Decree No. 2/73 dated 27 July 1973 as a Public Shareholding Company. The duration of the Company is ninety nine years commencing from the date of issuance of the above mentioned Emiri Decree. The registered address of the Company is P. O. Box 22588, Dubai, United Arab Emirates. The Company is listed on the Dubai Financial Market.

The condensed consolidated interim financial information as at and for the three month period ended 31 March 2021 (the "current period") comprise the Company and its subsidiaries (collectively referred to as the "Group") and the Group's interest in associates and joint ventures.

The parent company and subsidiary of the Group have complied with all applicable requirement of the UAE Federal Law No. 2 of 2015 and are in the process of complying with Federal Decree-Law No. 26 of 2020 on the amendment of certain provisions of Federal Law No. 2 of 2015 on Commercial Companies which was issued on 27 September 2020 and shall take effect starting from the 2 January 2021.

The principal activities of the Group are to act as a real estate agent, manufacturing, retail trading and provision of real estate development, writing of insurance of all types, hospitality and other services.

Investment Group (Pvt) Limited, a company registered in UAE is a significant shareholder of the Company (the "significant shareholder").

# 2 Basis of preparation

#### Statement of compliance

The condensed consolidated interim financial information as at and for the three month period ended 31 March 2021 has been prepared in accordance with the International Accounting Standard ("IAS") 34, 'Interim Financial Reporting' issued by the International Accounting Standards Board. This does not include all of the information required for a complete set of International Financial Reporting Standards ("IFRS") financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 31 December 2020.

#### Use of estimates and judgements

The preparation of these consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised prospectively.

The significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied in the preparation of the consolidated financial statements of the Group as at and for the year ended 31 December 2020.

#### 3 Significant accounting policies

The accounting policies applied are same as those applied in the annual financial statements as at and for the year ended 31 December 2020.

Notes to the condensed consolidated interim financial information (unaudited) For the three month period ended 31 March 2021

# 3 Significant accounting policies (continued)

New and revised IFRS applied with no material effect on the condensed consolidated interim financial information

There are no new and revised IFRS that has a material impact for the Group during the period.

# New and revised IFRS not yet effective

The Group has not yet applied the following new and revised IFRSs that have been issued but are not yet effective:

#### **IFRS 17 Insurance Contracts**

IFRS 17 requires insurance liabilities to be measured at a current fulfilment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 Insurance Contracts as of 1 January 2023.

Management anticipates that IFRS 17 will be adopted in the Group's financial statements for the annual period beginning 1 January 2023. The application of IFRS 17 may have significant impact on amounts reported and disclosures made in the Group's financial statements in respect of its insurance contracts. However, it is not practicable to provide a reasonable estimate of the effects of the application of this standard until the Group performs a detailed review. Management is in the process of performing a detailed assessment as required by the Insurance Authority on implementation of IFRS 17.

Other Standards and amendments that are not yet effective and have not been adopted early by the Group include:

- Amendments to IFRS 17 Insurance Contracts (Amendments to IFRS 17 and IFRS 4);
- References to the Conceptual Framework;
- Proceeds before Intended Use (Amendments to IAS 16);
- Onerous Contracts Cost of Fulfilling a Contract (Amendments to IAS 37);
- Annual Improvements to IFRS Standards 2018-2020 Cycle (Amendments to IFRS 1, IFRS 9, IFRS 16, IAS 41); and
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1).

#### 4 Financial risk factors

The Group's activities potentially expose it to a variety of financial risks: market risk (including currency risk, equity price risk, and interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2020.

There has been no change in the risk management policies since the year end.

On 2 July 2012, the Company concluded the restructuring agreement with a group of banks covering the outstanding debt of AED 2,778.4 million ("Earlier Restructured Loan"). The restructured loan was repayable in annual instalments up to 31 December 2018.

In previous years, the Company initiated a negotiation with the lenders to further restructure its outstanding debt. As at 30 September 2017, the Company concluded the revised restructuring agreement after obtaining approvals from the majority of the banks covering a total debt of AED 2,147 million (including interest payable of AED 74 million upto 31 December 2016). Under the revised agreement, 66.08% of the Earlier Restructured loan is repayable in annual instalments until 31 December 2023 and the remaining 33.92% as a final settlement in a manner to be renegotiated at that time.

Of the total restructured loan, the repayment of AED 349 million (principal), due and payable as at 31 March 2021, was in default. The Company's Directors have reviewed the facts and circumstances of this default in 2018 and have accordingly classified the entire loan amount as current liability.

The revised restructured facility carries interest at the rate of 2.75% per annum above 6-month EIBOR for term facilities denominated in AED and 6-month LIBOR for term facilities denominated in USD charged on a semi-annual basis. Further, effective from the revised restructuring agreement date, a payment-in-kind (PIK) at 0.25% will be additionally charged on a semi-annual basis on the outstanding debt and is due to be repaid on 31 December 2023. Commencing 31 December 2018, in the event of default, the interest rate will be increased by 0.25% per annum on a semi-annual basis. The Company has been in default in 2019 and therefore the interest rate has increased from 2.75% to 3.00% per annum for the year/period ended 31 December 2020 and 31 March 2021. Any such increase in the interest rate will no longer be applicable for future periods if no event of default subsists.

# 17 Borrowings (continued)

There is no change in the security and covenant requirements as per the revised restructuring agreement. The Company is required to maintain a minimum Asset Cover Ratio of 1.2:1 and is also subject to the general covenants including dividend restriction in accordance with the restructuring agreement. Further, certain subsidiaries of the Company are subject to maintain certain level of financial indebtedness as guarantors of the restructured loan. These borrowings are secured against certain assets of the Group.

Furthermore, the Company is in the process of negotiation with a financial institution to restructure a credit facility amounting to AED 257 million (included in trade and other payables) and interest of AED 39.3 million (31 December 2020: AED 39.3 million)

# 19 Financial instruments/ fair value hierarchy (continued)

# (ii) Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For financial instruments that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

# (ii) Fair value hierarchy (continued)

During the three month period ended 31 March 2021, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into or out of Level 3 fair value measurements (2020: Nil).

The fair value of unquoted equity investments was determined by an external, qualified and independent valuer as at 31 December 2020 who has experience in equity investments valuations. The Company's Directors are of the opinion that there is no significant change in fair value of unquoted equity investments as compared to the previous valuation carried out as at 31 December 2020.

#### 21 Contingent liabilities and commitments

#### Guarantees

The Group has issued corporate guarantees for loans and advances from commercial banks obtained by related and third parties including subsidiaries and associates.

#### Litigations

Certain claims and contingent liabilities may arise during the normal course of business. The Board of Directors review these on a regular basis as and when such claims are received and each case is treated according to its merit. Based on the terms of the relevant contract and circumstances, the Group determines if a counter claim should be lodged. Based on the opinion of the Group's independent legal counsel and information presently available, the Board of Directors have assessed that the final outcome of outstanding legal claims (initial judgement in some cases is in favour and in some cases against the Company) cannot be reliably determined considering these cases are sub-judice. On the basis of their review of the current position of these legal claims, the Company's Directors are of the view that the existing provision as at the reporting date is adequate to cover any possible cash outflows arising from the final outcome of these claims. The Company has elected not to present the complete disclosures as required by IAS 37 "Provision and Contingent Liabilities and Contingent Assets" as management is of the view that since the legal claims are sub-judice and are disputed, therefore this information may be prejudicial to their position on these matters.

Notes to the condensed consolidated interim financial information (unaudited) For the three month period ended 31 March 2021

# 21 Contingent liabilities and commitments (continued)

Furthermore, certain other contingent liabilities may arise during the normal course of business, which based on the information presently available, either cannot be quantified at this stage or in the opinion of the management is without any merit. However, in the opinion of the management, these contingent liabilities are not likely to result in any cash outflows for the Group in addition to any related existing provisions currently in the books.

# 22 Segment reporting

The internal management reports which are prepared under IFRS are reviewed by the Board of Directors based on the different sectors in which the Group operates. The Group has identified the following different sectors as its basis of segmentation:

Manufacturing Includes manufacture and sale of oil, lubricants, grease, prefabricated

houses, concrete, carpentry, restaurant, ovens, kitchens and central air

conditioning systems.

Investments in real estate properties and equity securities.

Insurance services and others Service and other operations include writing of insurance and various

other services including hospitality.

Information regarding the operations of each separate segment is included below. Performance is measured based on segment profit as management believes that profit is the most relevant factor in evaluating the results of certain segments relative to other entities that operate within these industries. There are regular transactions between the segments and any such transaction is priced on mutually agreed terms.
